

To Whom It May Concern:

Please do not modify the Wisconsin No Call Law. Prior to this law my family never had one meal without a telephone call with someone on the other end trying to sell us something. In today's fast pace world the only time our family can get together and relax is at home. Telemarketers' interfere with this time of relaxation and family togetherness by their insistent telephone calls. Telemarketers argue that people want to hear about their programs, services, etc. But if that were true, nobody would have signed up to be on the no-call list. The huge number of people that have signed up to be on the no-call list is a testament to how much people want their privacy at home. So again I ask you to please leave the Wisconsin No-Call Law in its current form. I thank you for this consideration.
